Our clean commitments

- We are proud to be one of the founding members of SEAM (Sustainable European Abrasive Manufacturers), determined to make a difference and have defined our clean commitments. We take responsibility and lead by example — in everything we do.
- We want to make sure the future is sustainable for the business, our partners, employees and the environment.

We don't use any fossil liquid fuel in our Jeppo factory.

Production footprint and technology

Finland:

- Jeppo: Main plant. Head office, Technology and R&D centre
- Jakobstad: Manufacturing power tools, micro products and polishing compounds
- Karis: Manufacturing of raw materials
- Oravais: Converting

Technology:

- From bulky thermal curing paper processing technology into digital print technology for abrasives
- Digitalization of the production process all the way to the customer
- Efficient, intelligent, electrical, light weight tools
- Substituted 7 000t/year of fossile fuels

MIRKA

Dust-free profitability

- We are the innovators of dust-free sanding, educating the markets since many years.
- Dust-free sanding makes the job cleaner, healthier, quicker and more cost-effective.
- Drives profitability, efficiency and safety for everybody involved.
